MDR Service

## Who **We** Are?

Green Radar is a next generation IT security company which is a combination of technology and skills to deliver:

- ✓ Email and Endpoint Threat Detection
- ✓ Deep Threat Analytics and Response

Our Security Operation Center (SOC) is using a Managed Detection & Response (MDR) approach which helps our customer to manage threat detection & response on email and endpoint devices.

A wholly owned subsidiary of Edvance International (HKSE: 8410), with a long history of providing advanced IT security services and protecting many large enterprise's email and endpoint devices.

# grMail Standard

## Inbound Advanced filtering

- Technologies using :  
Anti Spam, Anti Virus, blacklist, Adaptive Reputation, Sandboxing, Malicious content stripping
- Email Fraud Detection  
SPF/DKIM Analysis  
Big data Analysis  
Sender and Recipient Abnormal Analysis
- Good Emails are delivered to Inbox
- Suspicious emails are quarantined in the quarantined box

# grMail Enterprise

## Phishing protection

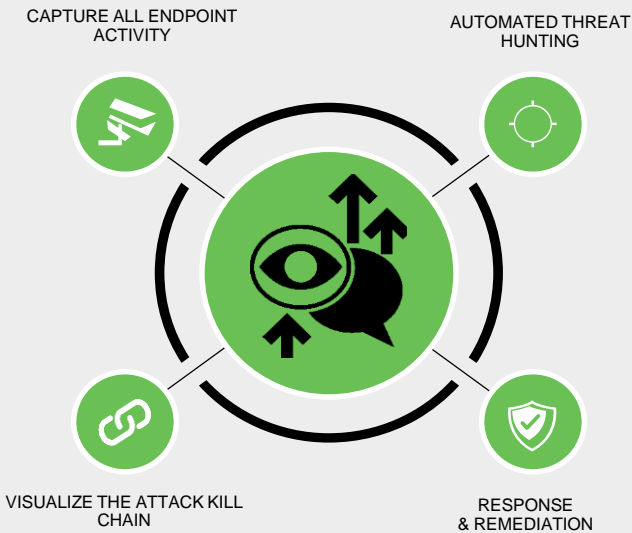

Backup up by world class IT Security vendor to provide an isolation platform specially design for phishing

Prevents phishing sites from delivering malware to endpoints and/or harvesting private information from users who click on phishing links

By isolating and executing user web sessions in the an Isolated platform, phishing sites can be rendered harmless, eliminating the threat of malware and preventing users from entering data into unknown sites

# grEndpoint

## Next generation AV + EDR

- ✓ Real-time sensor that watches all endpoint activities
- ✓ Tag that activity to identify the behaviors the attacker uses to compromise systems
- ✓ Rapid response & remediation
- ✓ Strong ransomware prevention
- ✓ Complete real-time visibility into all threat-related activities

# grAnalytics

## Ultimate threat protection by MDR

- Incident Response
- Sandbox Analysis
- Ad hoc Investigation
- Threat hunting
