

## CASE STUDY

# Bintai Kindenکو Singapore trusts all-in-one email security solution with Green Radar

### Client

Bintai Kindenکو Pte Ltd

### Industry

Electrical & Mechanical Engineering

### Location

Singapore

### Challenges

The rise in the Business Email Compromise (BEC), impersonation attacks, ransomware payload in emails, targeted malicious email campaigns received, makes the traditional email security solutions ineffective in defending it.

### Key Benefits

- Massive reduction in Spam
- Simple, easy-to-use interface
- Clear Email Classification
- Ultimate Protection from Isolated Platform

## Company Background

Headquartered in Singapore, Bintai Kindenکو Pte Ltd started off as a joint venture between Kinden Corporation and Bintai of Singapore in 1973, and today it has expanded into Malaysia, Vietnam, Myanmar, Cambodia, Indonesia and China. With more than 40 years of experience in the Mechanical and Electrical engineering field, Bintai has established an unassailable reputation for delivering top of the line services as well as being one of the most reliable company in Singapore. It has since accomplished many major and prestigious projects within and beyond Singapore.

## Challenges

With thousands of daily email communications with the customers, partners, and vendors, Bintai Kindenکو has exposed its company assets to ongoing and evolving email threats and attacks, not to mention tons of spam mails, graymails and phishing emails receiving every day, including malicious hyperlink in the emails with ransomware as the payload.

Bintai Kindenکو has explored different popular email security solutions offering in the market. It realized that Green Radar email security defence are able to categorise the suspicious emails with proper indexing, giving out fewer false alerts; and able to stop the infected email them coming in effectively. This is the key towards successfully response and prevent email attacks, and safeguard the valuable business information.

**Green Radar grMail™ Advanced works very well for us in Bintai Kindenko, protecting against the deluge of impersonating email campaign, spam, malwares, spywares, macros, phishing, and ransomware junks that are flying all over the internet these days. The robust link protection helps to prevent malicious payloads from downloaded into the user computer, resulted both data and financial losses to the company.**

*Mr. Chan Khay Seng, IT Department*

## Solutions

The business challenges that led Bintai Kindenko Pte Ltd to evaluate and ultimately select Green Radar grMail™ to protect their email because Green Radar has:

An all-in-one Enterprise-grade Class Email Security solution to protect against spam, virus, malware, spoofing emails, phishing and other email-borne attacks.

Local SOC and security expert team provide prompt response when customers require additional email security support, without language barrier and time lag issue. Advanced phishing link scanning and Email Links Isolation technology prevent malicious malware or ransomware being downloaded into the users' computers.

Comprehensive Sender Analysis, Sandboxing and Anti-Virus detection for Zero-Day attacks as well as ransomware attacks.

## Results

Green Radar has an array of rules and security features that perform multiple security functions, such as blocking spam, scanning and removing malicious content, to prevent phishing. It also detonates and checks out various attachments for malware, macros and other like rejecting email when the sender domain is not found.

Other advantages include:

- Users can whitelist & blacklist unusual email addresses when needed
- Good rule sets effectively in preventing Business Email Compromise/Impersonating email attacks
- Significant reduction on the volume of phishing, spam & malicious emails received
- Extremely reliable and virtually no downtime
- Link Isolation renders all links to an isolated platform prevents any malicious links from getting through
